(a) Single maps vs. ensembles
small dots: single realisations (n = 100 each); markers: ensembles;
arrows: from the median realisation to its ensemble
Brier skill
figure of merit
FoM null: random placement
potentials (no allocation)
Brier null: uniform forecast

rank−and−fill
ensemble
single map
(b) Where change is placed
changed cells by true probability;
line: median, band: 5 to 95 % of realisations
cumulative share of change
percentile among candidate cells
random placement
observed change
